Abstract: Replace this with your abstract. A good abstract states the problem, what you did, and what you found — in that order, and without citations.

Author keywords: First keyword; second keyword; third keyword

Introduction

Start here. Cite things like this (Knuth 1984).

ASCE journals expect a review-stage manuscript to be double spaced with numbered lines, and the camera-ready version to be single spaced. The class option at the top of this file switches between the two.

Method

Describe what you did.

Results

Table 1 reports the comparison.

Table 1. A caption belongs above a table.

Method	Capacity (kN)	Deflection (mm)
Baseline	118	4.2
Proposed	143	3.1

Conclusion

Summarise the contribution and name the next step.
