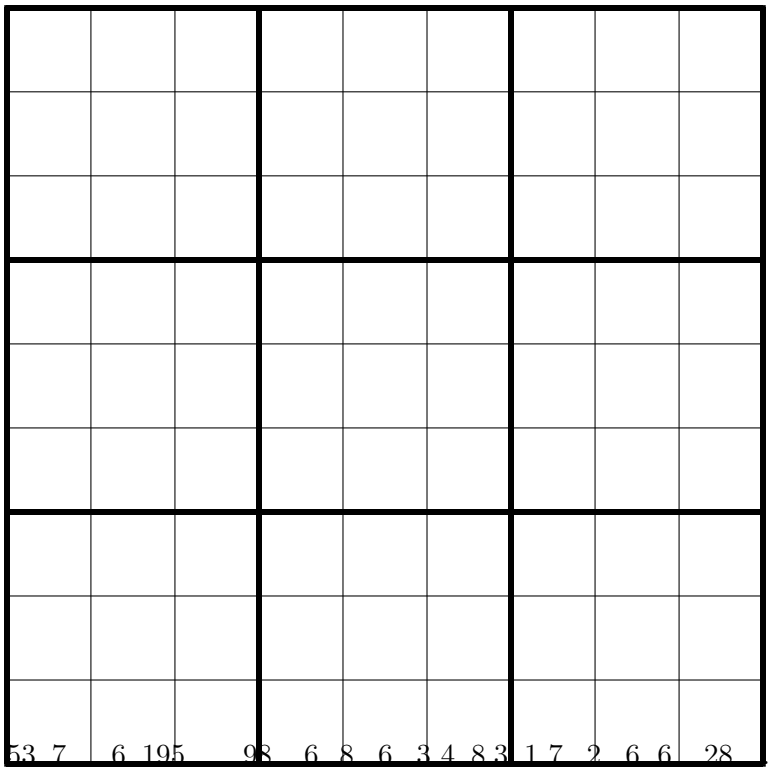
Classic Sudoku Worksheet

Your Name

August 29, 2026

Fill the grid so that each row, column, and 3x3 box contains the digits 1 through 9 exactly once. Replace the digits below with your own clues; a period represents an empty cell.

Puzzle 01



53..7....6..195....98....6.8...6...34..8.3..17...2...6.6....28....419..5....8..79

Notes

Use '.' for blanks and keep nine characters on each of the nine rows. The 'sudoku' package draws the grid and accepts a compact text representation, so the puzzle data remains easy to edit.
