Just DON'T
Question Evolution!!
the cell requires over
1,000 processes to stay
alive - if one is gone -
no life - all must
evolve at our
time = 1000's

Sorry, but the Cambrian
Explosion basically kills the
theory. Not to mention the
fossil record, or the lack
of feasibility of practical
evolution even in
young life. The
theory proving that
organisms are trillions to one.

I respect the theory

Darwin's evolutionary
theory is the only the-
ory backed with sound
scientific data. Evolution
can be seen on micro-
and macro level.

Just DON'T
Question Evolution!!
The cell requires over
1,000 processes to stay
alive - if one is over-
worked - all 1,000+
must evolve at our
time = impossible

Sorry, but the Cambrian
Explosion basically kills the
theory. Not to mention the
fossil record, or the lack
of feasibility of practical
evolution even in single
organisms. The odds are so
astronomically against the classical
theory that the present
organisms are trillions to one.

Sorry, but the Cambrian

lack of feasibility of practical

astronomically against the classical
Theory and is of any content
at all. We have billions to one.
